

KASHIF ALI AZIM

AI/ML ENGINEER | DATA ANALYST

azimkashifali3055@gmail.com | +923104972925 | [LinkedIn](#) :

SUMMARY

Data Science graduate passionate about turning complex data into actionable insights. Skilled in AI, automation, and analytics with hands-on experience building intelligent systems from concept to deployment.

TECHNICAL SKILLS

- Machine Learning
- Deep Learning
- Computer Vision
- NLP
- Agentic AI
- N8N
- LLM
- Langchain
- Data Analytics & Visualization
- Tensorflow & Pytorch
- Python
- Automations\Pipelines

PROFESSIONAL EXPERIENCE

AI Engineer Intern At RanginAI

March 2025 - May 2025

Designs and optimizes AI prompts and multi-agent workflows using CrewAI, LangChain, and Autogen. Builds automation solutions like customer care systems with N8N, while developing Python-based AI applications and continuously exploring cutting-edge technologies.

Data Analyst Intern EcodeCamp Pvt. Ltd

August 2024 - Sep 2024

Created data-driven solutions including customer retention models, real-time stock predictions, and marketing ROI analysis. Applied machine learning and sentiment analysis to solve real business problems and improve customer satisfaction.

STEM CLUB Trainer and Teacher

2019 - 2022

Mentored children in programming (Scratch, Python) and robotics while leading coding camps. Created engaging STEM learning experiences that inspire the next generation of tech innovators.

EDUCATION

Bachelor's In Data Science

2020 - 2024

- Institute Of Management Sciences, Peshawar

FSc In General Science

20218 - 2020

- Islamia College, Peshawar

CERTIFICATES

- Full stack bootcamp at Ghulam Ishaq Khan University.
 - From ML to LLM
- Hadi Learning (Data Analyst)
- Data Science Bootcamp by Usman Afridi JMM Tech

LANGUAGES

- English
- Urdu/Hindi
- Pashto
- Khowar (Chirtali)

PERSONAL PROJECTS

- Created multi-functional chatbot platform with memory retention, PDF Q&A, and real-time sentiment analysis using Python, Flask, LangChain, and Hugging Face.
- AI Trading Assistant using Langchain and multiple LLMs.
- Multi-Agent AI software Hub with langchain and multi ai agents like (code generator, debugger, optimizer & doc generator
- Built EmoGen - AI model that generates images from text using machine learning and deployed via Flask web application.
- Object Detection - Custom dataset with YOLO transfer learning
- Sentiment Analysis - Text classification using machine learning models
- Customer Care System - Email classification and automation using N8N
- Basic ML project in Linear Regression & Classification
